

Galapagos Active Land Tour: Day by day Itinerary

Day	Description	Meals	Spanish Speaking Driver or English Speaking Guide
4	<p>Biking tour at Santa Cruz Highlands: next on the program is an exhilarating biking trip to explore the highlands of Santa Cruz. We begin by car up to the Twin Craters - Los Gemelos in Spanish - a couple of Volcanic sink holes. This area is wet and humid, regularly covered by clouds and mist, covered with rich vegetation. The craters are approx 1 mile in diameter, and have short walking trails to discover the unique flore and fauna, such as Darwin Finches, Flycatchers etc. From this point we jump onto our bikes to descent 8km to Las Primicias Ranch. No Galapagos trip would be complete without seeing the Giant Galapagos Tortoise up close in its natural habitat, where they roam the lush highlands searching for food, or cooling off in the muddy pools. Wander the trails while your guide explains interesting facts about these gentle giants. There is also a 4aa m long lava tunnel that you can enter and walk inside. Back on the bike, we descent all the way from Santa Rosa back to Puerto Ayora - enjoying a fun 1c km trail through the highlands with beautiful views along the way. In the late afternoon, you can enjoy free time for souvenir shopping at the excellent boutiques in Puerto Ayora town, as well as superb dining & nightlife</p>	B	ESG
5	<p>Yacht Day Tour nearby island. Yacht Day Tour to an uninhabited island. Today you have the opportunity to discover one of the uninhabited islands on a navigable excursion. The tour includes a guided hike on the island and some time for snorkeling, with lunch on board the yacht. The exact destination depends upon daily availability, but will be one of the following options:</p> <p>Bartolome Island: This is the site of the iconic Galapagos landscape of Pinnacle Rock, where you can take your perfect photo. You do have to climb 3ti steps to get here, but the reward is immense. Along the way you can see lava fumaroles, and enjoy the incredible lunar style landscape. With a bit of luck, you may also see the world's only tropical penguin here! After the land visit, you'll have time to explore the amazing underwater wildlife while snorkeling.</p> <p>North Seymour: This is one of the best islands for Galapagos birdlife. Along the guided trail expect to see Frigate Birds, swallow tailed gulls and the famous Blue Footed Boobies who nest here. With red colored soil and red carpet vine growing on the island the scenery is exotic. Another interesting species found on North Seymour is the Land Iguana, a unique species from the ones seen on other islands.</p> <p>South Plazas: This small but scenic island has a fantastic concentration of wildlife, from Sea Lions to Land Iguana's and many bird species, including Frigate Birds, Lava Gulls and Red-Billed Tropicbirds. The dramatic cliffs, blue seas and spectacular natural red-carpet of algae make the scenery of this island particularly pretty.</p> <p>Santa Fe: A very diverse island with a beautiful white sand beach where Sea Lions bask in the sun. The island is covered with huge cactus trees, food for the Land Iguana population that is endemic to this Santa Fe. The walk up is quite rocky buy you'll be rewarded with stunning views at the top. Santa Fe is also considered one of the best snorkeling sites in Galapagos where sharks are often seen!</p>	B/BL	ESG
6	<p>Return to the continent: An early morning speedboat transfers you back to Puerto Ayora in Santa Cruz, from where you will be transferred to Baltra airport for your flight back to mainland Ecuador.</p>	B	SSD
